

Sale Name: Bulldog Auction

LOT 49 - Pontiac Hubcaps

Description

These hubcaps belong to a vintage Pontiac, as indicated by the "Pontiac Motor Division" lettering embossed around the center. The design features a polished chrome finish with a radial pattern of raised sections that give the hubcaps a distinct, classic appearance. The central hub area is recessed, providing a bold contrast to the raised segments, and the lettering emphasizes the brand's identity.

These hubcaps would be an excellent fit for a restoration project or for collectors looking to preserve the legacy of Pontiac vehicles. The condition shows some aging, but they still maintain their reflective shine and structural integrity, making them both a functional and decorative piece of automotive history.

Quantity: 1
