LOT 127 - Ford Model T Wheels (4)

Description

This set of vintage wheels is designed for a Ford Model T, featuring the classic wire-spoke design that was characteristic of early automobiles. The wheels show signs of age and rust, giving them an authentic, time-worn patina that adds to their antique appeal. They come with well-worn tires, which also reflect the historical nature of

these parts. These wheels would make an excellent addition to a restoration project or as decorative pieces for collectors of vintage automotive memorabilia.
