

Sale Name: Auction by the Dam - Winter Prelude

LOT 144 - X Chocks

Description

Keep your RV or trailer as steady as your resolve with this pair of BAL X-Chock Wheel Stabilizers. Designed to lock your wheels in place, these stabilizers provide superior stability and help reduce movement when parked. Ideal for tandem-axle trailers, they work by applying opposing pressure to both tires, creating a rock-solid camping experience.

Includes an easy-to-use wrench, so you can tighten them up without breaking a sweat (unless you're into that sort of thing). A must-have for any RV enthusiast looking to enjoy wobble-free evenings.

Quantity: 1
