LOT 9 - Regal Rotary Telephone

Description

Ring, ring! Step into a bygone era with this charming French-style rotary telephone. Its ivory base and handset, paired with brass accents, give it an air of elegance that whispers “Parisian café” instead of “modern spam calls.” The rotary dial features a beautifully painted pastoral scene, ensuring that even your imaginary conversations will have an artistic flair.

Though untested, it’s a showstopper for any desk, shelf, or vignette. Whether you’re a collector or just want to pretend you’re calling the 1920s, this phone is the perfect mix of vintage style and timeless appeal. Plug it in (if you dare) or let it be the decorative pièce de résistance of your home.

Quantity: 1
